## Why choose Professional Information Technology Diploma?

The Professional Information Technology Diploma designed and offered by FORMATECH in partnership with Notre Dame University - Division of Continuing education (NDU-DCE), reflects the blend of business, technical and interpersonal skills needed in modern Information Technology professional roles.

This new Diploma is designed to reflect the needs of a fast-moving industry and contains a sophisticated blend of theoretical and applied learning. Your in-class learning is backed up with practical hands-on experience. You will learn a wide range of skills that are transferable across many different sectors and job types.

Students will gain the knowledge and skills to sit a number of industry certifications including **Microsoft, Cisco, and CompTIA.**

## Why study at FORMATECH?

Information technology is continually advancing and evolving, creating new and exciting career opportunities for skilled professionals. The demand for IT experts is at an all time high, and FORMATECH is committed to producing work ready graduates with the right mix of theory and practice. You will be taught by University and industry professionals, with a wealth of knowledge and experience in the areas they teach. Our instructors maintain close ties with industry to ensure programs are up to date with the latest industry advancements.

FORMATECH is an authorized Prometric and Pearson Vue testing centers. We offer both industry professionals and current students the opportunity to sit internationally recognized industry certifications at our accredited testing centre.
